**Job Ref: Technical Support Associate**

Dear Hiring Manager,

Hello!

My name is Calvin Whittaker, and I'd like to introduce myself. I am genuinely excited to be submitting an application for the technical support associate position with Discord. After reading the job description, it's clear that you're searching for a candidate who is enthusiastic about the position and who can be counted on to fully engage with clients, loves the role and will develop professionally in a self-motivated manner. In light of these requirements, I strongly believe I am the most qualified candidate for the position.

I am a computer science enthusiast who has been repeatedly commended by my peers for my ability to learn new software. Over the course of my professional experience, I have acquired proven computer literacy skills, which I aim to apply to this position within Discord.

Please take a look at my resume and let me know if you think I am the type of positive and motivated applicant you are looking for. I'm looking forward to discussing how my specific skills and abilities will benefit your organization in greater detail. For more information, please call me at +1 (831) 251-1999 or by email at calvin@calvinwhittaker.com to organize a time that is convenient for both of us.

Thank you for taking the time to evaluate my request, and I look forwards to hearing from you.

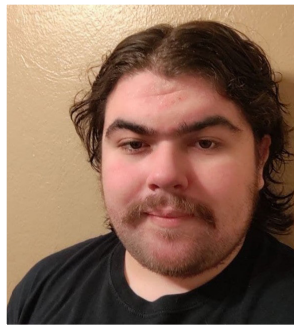

Sincerely,

A handwritten signature in black ink, appearing to be 'CW'.

Computer CTF 

## // Experience

2021-Now

**TalonFour Cyber Labs**

Internship [3mo]

Engaged with clients to understand systems requirements, including operating system requirements, number of users, and security requirements. (Antivirus)

Researched, and documented new, and novel findings in hypervisor deployment, and virtualization tooling.

Assisted research teams in projects involving software defined networks migrations, and security advisory.

2017-2020

**Sycamore Partners**

Print & Marketing Associate [Staples]

Worked with customers to troubleshoot, diagnose, and repair issues with various mobile and personal devices.

Enabled non-technical customers to understand complex, high-level technical terminology by communicating in human-centric, 'non-jargon' terms.

Performed technical analysis of malware, virus, and systems

misconfiguration issues on a wide variety of hardware.

Assisted clients with the design, and execution of print campaigns.

2016-2017

**Costanoa Continuation High School**

Student Leadership Council [Advisor]

Engaged in the planning an execution of social events, fundraising, and board advisory.

Functions included the execution of interpersonal UX surveys, and budget

management directives aligned with fixed scheduling constraints.

Advised board members on strategy in relation to social, and cultural topics within the student body.

## // About Me

My name is Calvin Whittaker. I am a dedicated computer enthusiast, who enjoys tinkering with various software and hardware, building computers, homebrewing systems to run unsigned code, as well as experimenting with virtual machines.

I aspire to obtain deeper knowledge of the underlying infrastructures behind what makes many common programs function, as well as one day creating my own video game.

Additionally, I spend a lot of my free time composing music, participating in MUDs (Multi User Dungeons), and livestreaming.

## // Software

Adobe Photoshop 

Quick EMUlator 

Linux MultiMedia Studio 

Unity 

## // Awards / Accomplishments

**2014**      **Proficiency in Typing [100+WPM]**  
Harbor High School

**2015**      **Excellence in Music [Piano]**  
Harbor High School

## // Professional Statement

I have a deep passion for computer science. Particular areas include embedded devices, operating systems development, virtualization, and networking solutions. My drive for learning new things, discovering, and gathering knowledge drives me to continually self-improve, and refine my skills.

My hobbies include music production, playing video games, and socializing online. I have a tremendous love, and passion for online communities, and technology that enables this, having developed and deployed a Discord and Telegram bot for large-scale use, with the assistance of a colleague.

I believe that by utilizing our empathy, and passion for technology to change lives, we can improve society together. To be a part of that change, to influence the world for good, this is my mission statement.
